

LANDSCAPING

Safeguarding those who care for our surroundings

Caring for the shrubs, lawns, and flowerbeds that surround America’s homes and public spaces keeps landscapers in-demand all year-round. Many of their necessary tasks involve hard physical work in tough outdoor conditions. Employees handle dangerous tools and equipment and may risk exposure to harmful chemicals.

Focusing on worker safety is so important, and that’s why Foresight wraps Safesite — our proprietary app and consulting service — into every workers’ compensation policy, so that landscapers can focus on what matters: keeping their people safe. In fact, clients using Safesite have seen an average 18% reduction in claims frequency in just one policy year.

Target accounts: We write mid-market policies for landscapers (including exposures like tree trimming at higher premium levels).

Minimum premium: \$25k across all active states; \$150k for tree trimming

Carrier: Transverse A- Excellent from AM Best Class VII. Transverse is on track for a substantial financial strength upgrade as multinational carrier Mitsui Sumitomo (AM Best rating A+ Superior) announced a planned acquisition in 2022.

Foresight’s appetite includes: Landscape services, lawn maintenance (commercial or domestic), tree pruning and removal, and more.
