250%

Increase in safety actions completed

8 HOURS

Per week saved by using Safesite

18%

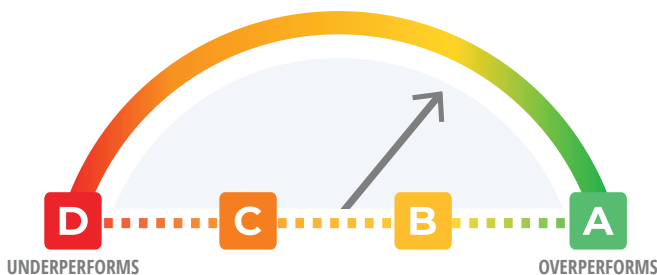

Claims frequency reduction in one policy year

57%

Proven reduction in workplace incidents

Safesite score

Think of the Safesite Score like a credit score for safety performance. Completing planned safety actions puts your clients in the driver's seat, empowering them to build a culture of safety that translates to reduced costs, fewer claims, and more workers home safe.

Virtual risk management and safety success coaching

We will partner with you to promote consistent Safesite engagement to your clients. With a customized Safety Success plan and a dedicated Safety Success coach, we support you and your clients through every step of the process—while minimizing the time you spend on oversight and safety management.

"It's rare that a business product or service is as they say in the pitch. Other insurers had a platform, but not as neat or developed as Safesite. Safesite has helped digitize inspections and make them second nature."
