

# What is Safesite?

Foresight's proven, proprietary safety management app and coaching service.

## Safesite's dedicated team of safety professionals will:

1

### Plan

Create a custom safety plan based on your industry and loss history.

2

### Prep

Identify and train select employees to use the app. Not every employee needs to use it to make an impact.

3

### Perform

Provide ongoing support and coaching as you achieve your compliance and safety goals.

**Proven to reduce  
claims frequency by  
17% on average.**

per independently reviewed  
actuarial studies

# Easy-to-Use

**“Foresight’s safety app has made my job so much easier.”**

- Rachel A.  
Safety Director at a General Contractor

**Lean:** See results with supervisors in your company using the app 20 minutes per week

**No special equipment:** Simply an app on a smartphone or tablet

**Bilingual:** The app and training are available in both English and Spanish

**We do the heavy lifting:** The Safesite team of experts handles planning, onboarding, training, and ongoing support for your team

**Save time on OSHA compliance:** Safesite digitizes paper OSHA and other safety compliance forms

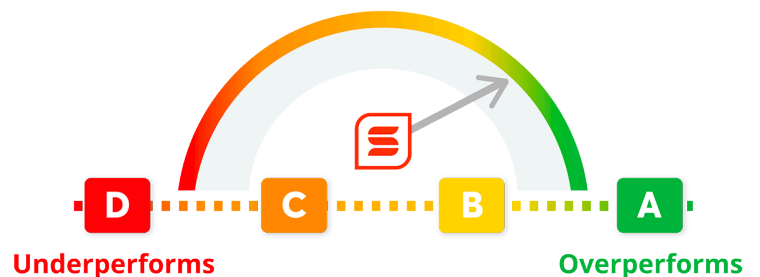

**Advance Features:** The Safesite desktop portal allows you to view live performance analytics and reports

## No Additional Cost

Safesite is provided to each Foresight workers' comp policyholder at no additional cost, saving thousands.

## Show off your Safety

Safety actions completed and logged in the Safesite app improve your Safesite Score. Stronger scores reflect favorably upon policy renewal.
