

Take the Hard Out of Safety

Simplify your safety program with a Foresight policy powered by Safesite.

Safesite makes safety simple so your crew can stay focused on the job, not paperwork.

Included with every Foresight policy, at no extra cost.

Track Your Team's Progress in the Admin Portal

- Easily manage projects & export reports.
- Track safety performance in real time with your Safesite Score.
- Digitize paper OSHA & compliance forms, saving you time.

Mobile Collaboration for Field Teams

- Complete custom checklists, hazard reports, and safety meetings from the job site.
- Prevent incidents before they happen with real-time alerts and coaching
- No more chasing down paperwork or lost reports.
- **Available in Spanish, too!**

Simple to Set Up and Use

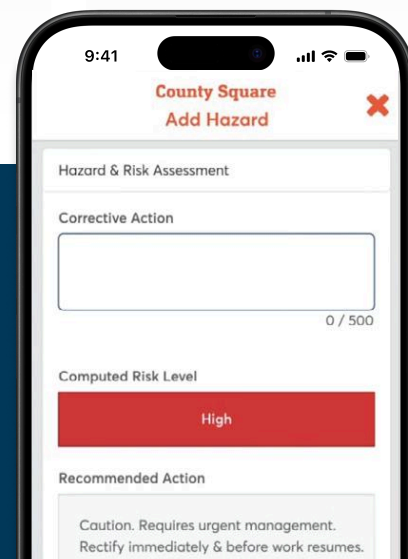

- No IT support needed.
- Works on any mobile device.
- 1:1 coaching available whenever your team needs it.
- Automated alerts ensure you never miss a safety step.

We had a big rigging and confined space problem

With Safesite's help, we captured risk exposure of both tasks, provided corrective action solutions, and executed them.

Director of Personnel, ASSE CHST, STS-C;
CORPORATE SAFETY DIRECTOR, JRCRU

Pro-Safety, Not Just Pro Policy

Here's how it works

1

Initial kick-off:

Once your policy is bound, we'll meet to go over your loss history, identify areas for improvement, and build a tailored safety program based on your industry and past claims. Depending on your company profile, we may conduct on-site loss control surveys.

2

Get up and running fast:

You choose key team members to use the app—just a few can make a big difference to your safety culture. We'll then train these users on how to use the Safesite app for regular safety actions.

3

Proactive loss control

Your Foresight Safety Success team will continually monitor your claims and Safesite performance, providing best practice consultation and curriculum updates to help you hit your safety and compliance goals.

Showcase Your Safety

Every safety action logged in the Safesite app boosts your Safesite Score. A stronger score reflects favorably when your policy renews.
